

Bookmark the Take Action Lookup Tool on Your Phone

For Your Android Phone:

1. Visit TakeActionOnWeeds.com/site-of-action-lookup

2. Press the “Menu” button

Note: There are different menu buttons for different phone types. On a Samsung, the menu button is the soft button next to the home button , on a Nexus the menu button is the three-dotted action overflow button.

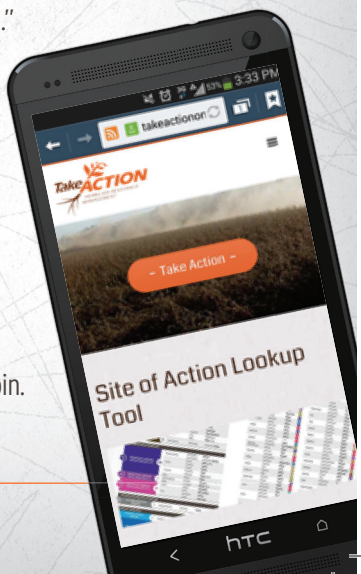

3. Press the start or “Add bookmark” icon

4. Enter the details (name, address, and the folder where your bookmark will be stored) and hit “Save.” This will bring you back to the lookup tool webpage.

5. Once you’ve returned to the website, hit the “Bookmarks” button. 

6. Find the bookmark, and long press it until a new menu pops up. Choose “Add shortcut” or “Add to home screen.”

7. Return to your home screen, where you will find the Take Action icon. Drag it to your desired location. If you would like to remove it, long press the icon and drag it to the garbage bin.

Bookmark the Take Action Lookup Tool on Your Phone

For Your iPhone or iPad:

1. Visit TakeActionOnWeeds.com/site-of-action-lookup
2. Hit the "Share" button. It's the icon in the middle at the bottom of the page, which represents a page with an arrow pointing upward. 
3. Two rows of icons will appear. Select the icon with the message 'Add to Home Screen'.
4. A new screen will appear that says "Add to Home." Edit the description if you'd like, then click "Add."
5. The Take Action icon will now appear on your homescreen. To move it, hold down the icon until all the icons on your homescreen start jumping. Then, drag the icon to your desired location. To delete your bookmark, hold down the icon until a cross appears at the top left corner. Hit the cross and it will disappear.
